NEWS RELEASE

MFM BUILDING PRODUCTS CELEBRATES 55TH ANNIVERSARY

Coshocton, Ohio – MFM Building Products, a manufacturer of a full envelope of waterproofing and weather barrier products for the building industry, is celebrating the company’s 55th Anniversary.

MFM Building Products was founded in 1961 by Robert E. Simpson. Initially, the company manufactured products used for wrapping underground pipe to protect from water penetration and pipe contents becoming contaminated. MFM expanded this technology to develop sealing and waterproofing products for use within the general construction industry.

Today, MFM manufactures a wide array of weather barrier products that include low-slope roofing membranes, roofing underlayments, window and door flashing tapes, multi-purpose waterproofing membranes, specialized waterproofing tapes, and HVAC duct and pipe wrap. These exterior, waterproofing membranes are self-adhering and self-sealing for ease of installation and complete waterproofing protection. MFM products are manufactured in the United States and sold through an extensive distributor network around the globe.

According to Tony Reis, MFM Sales & Marketing Director, “MFM can offer our customers a complete envelope of waterproofing solutions – everything from the rooftop to the foundation. This single-source option gives our customers several competitive advantages.”
