

# Ace™

## Evap-Klean Plus (FEK)

### FOAMING EVAPORATOR CLEANER

- Ready-to Use Spray-On Coil Cleaner
- Recognized under EPA's DfE Program
- Replaces Costly Aerosol Coil Cleaners
- NSF Registered as a Coil Cleaner (P1) for Use in and Around All Food Processing Areas

**ACE™ EVAP-KLEAN PLUS** is a ready-to-use, spray-on, biodegradable, foaming, non-rinse, non-toxic, neutral pH coil cleaner formulated with a unique blend of "environmentally-friendly" surfactants and solvent to clean and degrease evaporators, electronic filters, heat pump units and permanent air filters. ACE™ EVAP-KLEAN PLUS is recognized for "Safer Chemistry" under the EPA's Design for the Environment Program.

#### FEATURES & BENEFITS

- Eco-friendly solvent and surfactants quickly emulsifies grease and oil.
- Sewer System Safe.
- Replaces High/Low pH cleaners for rooftop applications.
- Neutral pH – Non-Corrosive.

**DIRECTIONS FOR USE:** For best results rinse coil first to remove any debris from surface. Then simply spray **ACE™ EVAP-KLEAN PLUS** directly onto coil surface. Leave foam on surface for 5-7 minutes then flush coil surface with clean water. Cleaner can be left on coil for condensate to wash off providing conditions ensure adequate condensate water when unit put back in service.
